{ server }

tool

{ 1 retrieve
2 websearch }

transportation
stdio

exposing

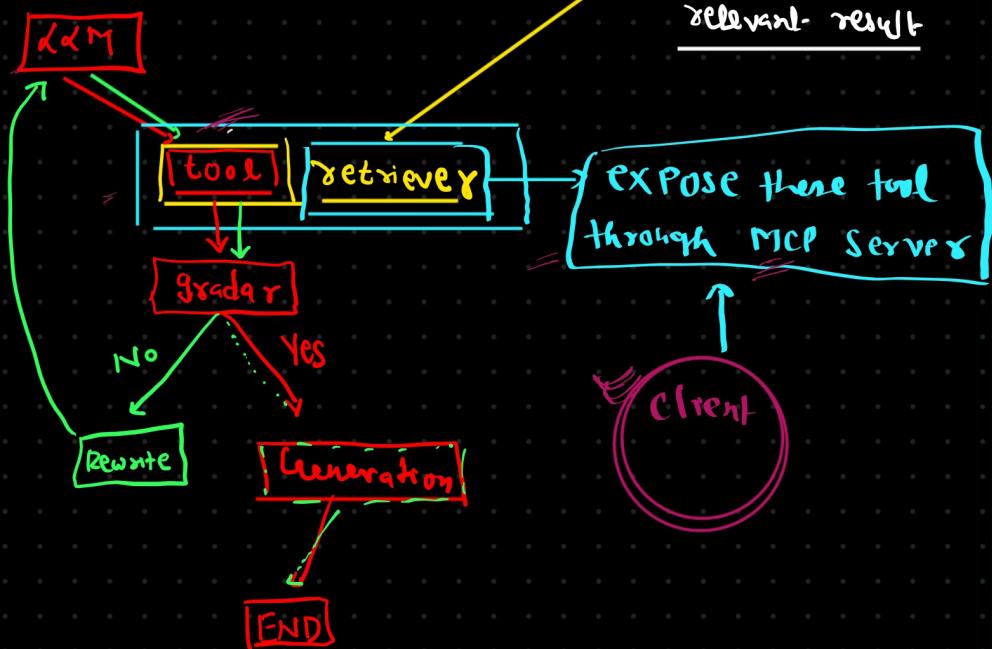

Asentic RAG

toolcalling

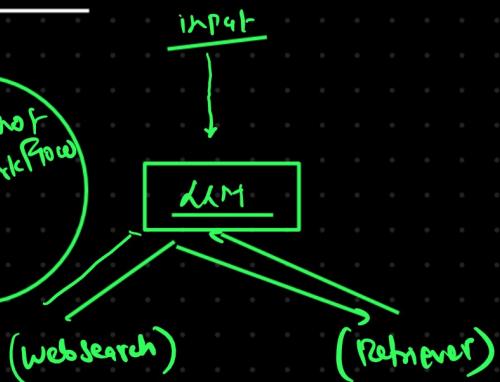

= through MCP

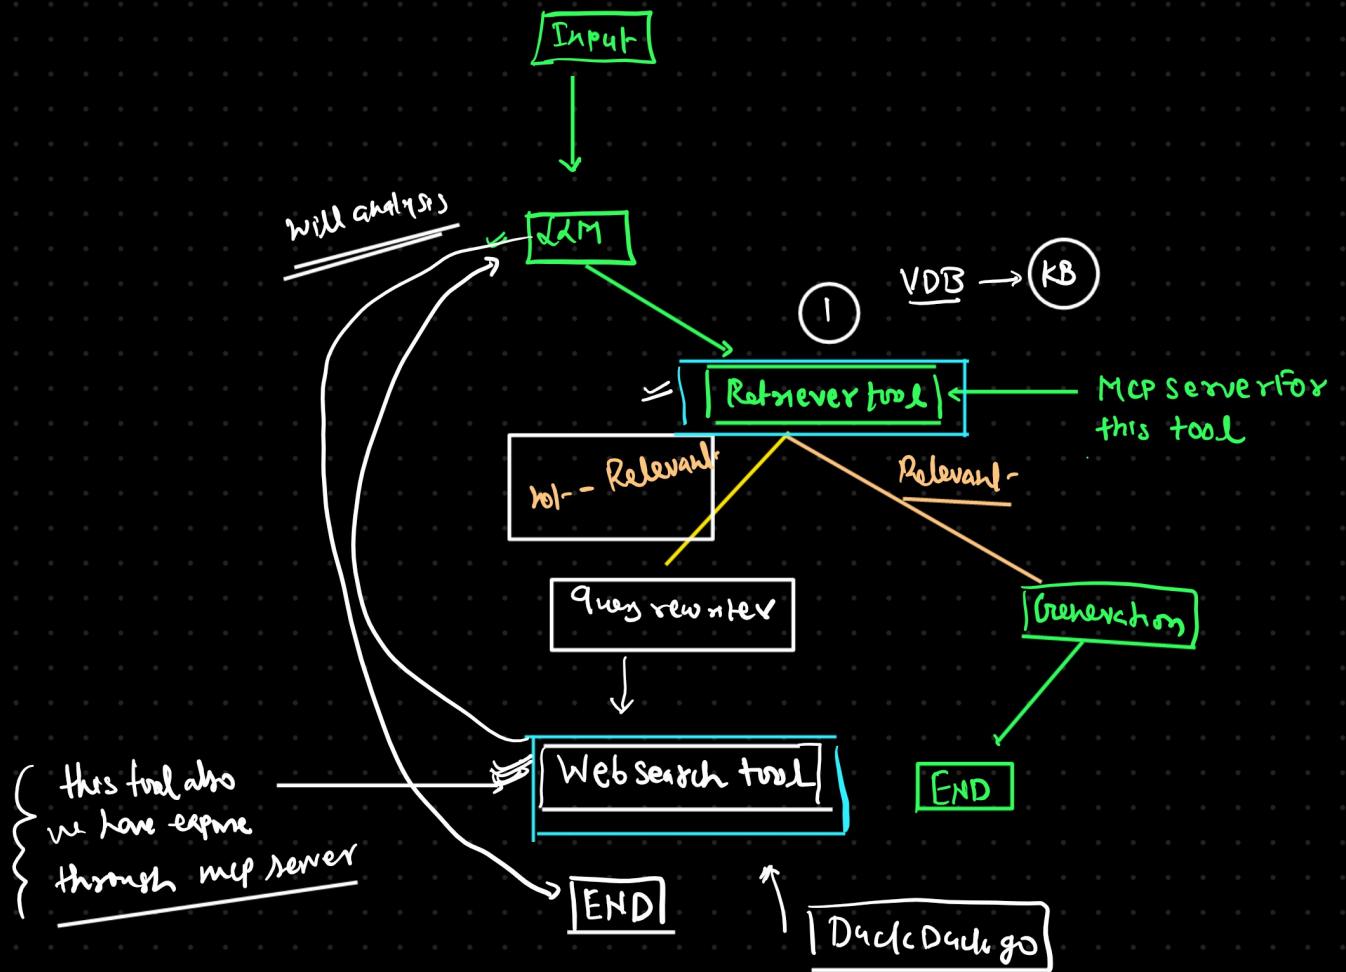

Corrective RAG (Asentic RAG)

Corrd - the info internal

this is not my workflow

1 Yesterday \rightarrow MCP tutorial

2 today \leftarrow integrated MCP in Prod-assistant Project

Prod-assistant

\hookrightarrow mcp

\hookrightarrow client.py \leftarrow this client file it's just for the testing

\hookrightarrow product-server.py \leftarrow All the tool(function)

exposing through MCP server

** What is our main AIM **

Langgraph workflow

We want to consume this tool through server

Workflow

→ work with MCP web search

we have define the Client-
